# Rise Up to Rising Tides

- Partnership with 20+ organizations. Key partners National Trust for Historic Preservation & Union of Concerned Scientists
- Build pro-bono platform for climate adaptation
- Focus on bringing technical assistance directly to small and medium-sized towns that are geographically remote and socioeconomically vulnerable.

### GROWTH And DEVELOPMENT

GERMINATION OF A BEAN SEED

GERMINATION OF A BEAN SEED IS STIMULATED BY WATER WHICH SOFTEN THE SEED COAT AND WARM TEMPERATURE.

AT THE ROOT GROWS THE HYPOCOTYL LENGTHENS.

RESULTS

**PURPOSE:**  
The purpose of my project is to find how climate change affects the economy and how humans causes it.
